2020 Strategy update

The EU's five headline targets for its 2020 Strategy, endorsed by the European Council in June this year, are:

- 1 . Raising the employment rate of the population aged 20-64 from the current 69% to 75%.
- 2 . Raising the investment in Research and Development (R&D) to 3% of the EU's GDP.
- 3 . Meeting the EU's '20/20/20' objectives on greenhouse gas emission reduction and renewable energies.
- 4 . Reducing the share of early school leavers from the current 15% to under 10% and making sure that at least 40% of youngsters have a degree or diploma.
- 5 . Reducing the number of Europeans living below the poverty line by 25%, lifting 20 million out of poverty from the current 80 million.

This year's Employment Week Conference will take a closer look at the Strategy as it affects employment levels in member states. The Conference will open its second day with a plenary session entitled: 2010 strategy-Raising participation levels to reach set targets. A vision for smart, sustainable and inclusive growth

欧州委員会が主催する EU 最大の雇用に関する国際会議。2020 年までに労働参加率を 75%までにするという欧州の取り組みは大いに参考になる。
